

Uros Kljecanin

Web Developer

Dedicated professional with over six years of experience in healthcare, where I developed strong communication, organization, problem-solving, and teamwork skills. Driven by a passion for technology, I transitioned into software development and have been building hands-on skills in programming and digital tools. I am a motivated and adaptable learner who enjoys solving problems, learning new technologies, and applying my previous professional experience to new challenges. Currently seeking an opportunity to grow within a software/technology-focused role and contribute to a collaborative team.
